

## Exceptional GPS

Copper Point offers full screen, full colour GPS to give you an exceptional golf experience. Here are some of the features you'll enjoy:

### Graphic Hole Overview

As you approach each hole, you'll be shown a full colour graphic overview showing exact distances to the pin, fairway hazards, landmarks, time-of-play and tips from the pro.

### Two-Way Communication

Throughout your round, you can communicate with friends in other carts and with course attendants. Emergency messages and weather alerts can be transmitted instantly.

### Food and Beverage Ordering

Place an advance order with our restaurant, the View at Copper Point, so that your meal is ready when you step off the course

### Tournament Leaderboard

Our tournament leaderboard and electronic scoring display the hole number, par, handicaps and the names of all golfers in the tournament. Scores are automatically updated. Through ScoreCast Tournament Software, you have the option to broadcast your tournament result to multiple leaderboards. Copper Point can even customize your scorecard to match your type of tournament.

### Electronic Scoring

At the beginning of your round, you'll be given the option to record your score on the Copper Point GPS system. This allows you to enter your score at the end of each hole and view an updated scorecard throughout your round. After your round is over, you can visit the Pro Shop and receive a printout of your scorecard to take home.
